### **Application letter for the position of Database Administrator or Software Developer**

Dear Sir/Madam,

With this letter I am applying for the job of a database Administrator or software developer in your organization. With my current skill-set and experience in the field of database Administration and software development, I believe I will be of valuable service to your organization. I am hardworking and also willing to learn new skills needed to achieve any certain goal.

To become the best database administrator is a career goal of mine, which is why even from my days at the university I have been focused on developing my ability to create robust and secure databases. I have created and managed numerous databases. In addition, I will love to state that I am willing and able to learn new technologies that are developed. Furthermore, to ensure that I become very good in database development, I have acquired numerous international database related certifications such as Microsoft Certified IT Professional: Database Administrator 2008, Microsoft Certified Technology Specialist: SQL Server 2008 Implementation and Maintenance. So, I do believe that if given the opportunity I can do an excellent job.

In addition, to achieve my quest of becoming an excellent software developer, I have been involved in both personal and team software projects and consequently have acquired relevant skills in computer programming. Such programming skills include ability to use Php, C#, Vb.net, Mql4, JavaScript, html, CSS and other programming languages for various purposes. Furthermore, I have a Computer science Bachelor's Degree (Second Class Upper) from Imo State University in Nigeria and in addition to my degree certificate I am also a Microsoft Certified Technology Specialist, Microsoft Certified IT Professional. Furthermore, I also acquired an Advanced Certificate in Information Technology from the National Institute of Information Technology (NIIT).

Also, I will love to mention that I currently own and manage a robust web application (csnigeria.com) which was fully developed by me, please feel free to check on it to visualize my usage of some of the skills I mentioned earlier.

I will be delighted to be given the opportunity to contribute in achieving your organizational goals and objectives. Do feel free to contact me for further discussions.

Thank You in advance for considering my application.

Best Regards  
Ikwuanusi Ugochukwu Francis
