- Developed an in-house WEB APP for website automation using Python(Beautiful Soup), thats allows users to automatically download documents and files from any given website with just a click.
- Developed more knowledge in Python programming language skills, Completed Software Testing, Bilingual Web Resource Acquisition and Format processing using Python
- AWARDED; BEST PERFORMING INTERN IN CLASS

PROJECTS

PERSONAL FINANCIAL MANAGEMENT SYSTEM (PFMS)

I built a user friendly Financial Management System using JAVA and mySQL, the system enables users to manage their income and expenditure, calculate their total summation of income or expenditure for the week, month or year.

I Utilized Java, JavaSwing for GUI and mySQL for database

Built features using self made algorithms in JAVA that learns what a user spend most of their income on, by classifying each expenditure into categories like Education, Leisure etc.

This system can determine where most of the users incomes comes from, user can set goals on their income or expenditure for the month or year.

EDUCATION

B.Sc in Computer Science and Technology

AeroSpace University

📅 2016 - 2019 📍 Shenyang, China

- First Class Honors.

TECHNICAL SKILLS

Java

Java Script

Python

C / C++

SQL (mySQL, Oracle)

HTML/CSS/JSP

GIT

Database Development

Nodejs

Web App Development

Software Testing

AI

Data Structuring

Web Programming

Front -End & Back-End System Design

Software integration and design

OTHER SKILLS

Adobe (After Effects, Illustrator)

Dreamweaver & XD

Info-graphics Design

Operating System
Troubleshooting

Music Production
