## Summary

Fast-paced, creative web developer with 2 years of experience with extensive knowledge of PHP, Laravel, MySQL, JavaScript, HTML, CSS, and other web programming languages. Strong proficiency problem solving, providing solution to complex problems through the best possible minimum approach.

## Experience

**Web Developer (Remote) | 09/2021 - 10/2023 | GETNET TECHNOLOGIES LTD | Warri, Delta state**

- Debugged a loan web application to ensure 100% accuracy in displaying critical data, including total loan amounts received, approved, and applied for, as well as user application history. This meticulous debugging not only achieved complete data accuracy but also notably enhanced user satisfaction and trust in the system's reliability.
- Developed e-commerce web applications for the company's business client, where I successfully implemented strategies (such as introducing a more intuitive navigation system, optimize product listings, and streamlining the checkout process) for users to easily manage products and purchase them.
- Managed the website for a company in the fashion industry by enhancing product display features, resulting in higher customer satisfaction rating.
- Managed various websites ranging from loan application websites, e-commerce websites, civil engineering industry websites, amongst others.

**Web Developer Tutor (Contract) | 07/2023 - 12/2023 | TENCHARIS ICT HUB | Port Harcourt, Rivers State**

- Through my role as a web development tutor, I focused on imparting comprehensive knowledge encompassing web development and design. My teaching methodology prioritized best practices, emphasizing the importance of writing clean code and deeply understanding syntax across various languages and tools.
- My teaching scope extended beyond frontend principles to encompass backend technologies such as PHP and MySQL, ensuring students gained a holistic understanding of web development. Additionally, I enriched their skill set by providing instruction on essential ICT tools like MS Word, PowerPoint, and Excel, facilitating a well-rounded proficiency in technology.
- In recognition of my dedication to ensuring students' comprehensive understanding and timely completion of tasks, I received commendation from the founder of Tecnharis ICT Hub. The strategies I implemented were aimed at fostering a thorough grasp of the subject matter while consistently meeting project deadlines.

## Personal Projects

- **Laravel Tasks Management** (<https://tasks-manager.favourk.com.ng/>)
