

AKINTOYE CHRISTOPHER

OVERVIEW

Dynamic and highly motivated student with a strong passion for cyber security, specializing in security architecture, network security, programming and scripting, and penetration testing. Also skilled in administrative assistant tasks, such as scheduling appointments, managing calendars, and providing general office support. Seeking opportunities to apply my technical skills and knowledge to enhance the security posture of organizations, while continuously expanding my expertise in the field.

Christopher Akintoye

Name: Akintoye Christopher

OBJECTIVE

Dedicated and results-oriented cyber security professional with a specialized focus on security architecture, engineering, and administrative assistant tasks. Seeking a challenging position that leverages my extensive technical training expertise to enhance organizational security measures. My objective is to contribute strategic insights, innovative solutions, and hands-on technical skills to fortify cyber security frameworks and empower teams through comprehensive penetration testing training. As a cyber-security advocate, I aim to bring a proactive and holistic approach to security architecture, ensuring robust defenses against evolving cyber threats. With a proven track record in developing and delivering technical training programs, I aspire to not only enhance the cyber security posture of organizations but also foster a culture of continuous learning and resilience in the face of emerging security challenges. Ready to apply a unique blend of strategic thinking, technical prowess, and a passion for education to drive excellence in cyber security practices and empower teams to navigate the complexities of the digital landscape effectively.

KEY ACHIEVEMENT

- Made reverse engineering Android apps a breeze by automating those repetitive tasks—pulling, decoding, rebuilding, and patching.
- Microsoft Learn Student Ambassador (ALPHA AMBASSADOR)

EDUCATION

Bachelor of Science in Computer Science

Ondo State University of Science and Technology Okitipupa

Ondo State

September 2021 – September 2025

RELEVANT COURSEWORK

- Network Security
- Security Architecture
- Microsoft 365 {Office, Excel, Power point, Access, Outlook}
- Organization
- Customer Service
- Data Entry and Management
- Information Management System
- Penetration Testing
- Scripting and Programming (Python, C++)
- Operating Systems and System Administration

- Threat Intelligence
- Azure App Services
- Incident Response
- Security Policy Development
- Compliance and Risk Management

TECHNICAL SKILLS

- Network Security:

- Proficient in configuring and securing network devices, including routers, switches, and firewalls.
- Knowledge of VPN technologies, intrusion detection and prevention systems (IDS/IPS), and network monitoring tools.
- Familiarity with security protocols (SSL/TLS, IPsec) and network architecture design for security

- Programming and Scripting:

- Skilled in Python and C++ programming languages.
- Proficient in scripting languages like PowerShell, Bash, and JavaScript for automation and analysis.
- Experience in developing security tools and scripts for various cyber security tasks.

- Penetration Testing:

- Hands-on experience with industry-standard tools such as Metasploit, Burp Suite, Wireshark, and Nmap.
- Strong understanding of penetration testing methodologies, including reconnaissance, scanning, exploitation, and post-exploitation.
- Knowledge of social engineering techniques and ethical hacking practices.

- Operating Systems

- Competent in Windows, Linux (Ubuntu, Kali), and macOS environments.
- Proficient in system hardening, log analysis, and incident response procedures.

- Azure Identity and Access Management

- Competent in Configuring Azure Active Directory (AAD) for App Services

- **Terraform Configuration Language (HCL)**

- Adept in Writing Terraform configuration files.
- Proper Understanding of Azure resources using Terraform syntax.

- **Infrastructure Deployment with Terraform**

- Strong Understanding of Terraform scripts to deploy Azure resources for App Services.
- Familiarity with the management of Terraform state files and backends.

- **Microsoft 365 Fundamentals**

- Proficient in understanding and utilizing Microsoft 365 cloud services, including Microsoft Office applications (Word, Excel, PowerPoint, Outlook), SharePoint Online, OneDrive for Business, and Microsoft Teams.
- Knowledgeable about cloud computing basics, including cloud deployment models (public, private, hybrid) and cloud service models (SaaS, PaaS, IaaS).
- Experienced in leveraging productivity and collaboration tools within Microsoft 365 to enhance team communication, document management, and collaboration.
- Familiar with security and compliance features of Microsoft 365, including data protection, identity management, encryption, and compliance tools.
- Skilled in Microsoft 365 administration and management tasks, such as user account management, license management, and service monitoring.
- Understands the business value of Microsoft 365, including increased productivity, improved collaboration, enhanced security, and cost savings.

PROFESSIONAL EXPERIENCE

Administrative Assistant at Flixon Studios

Jan 2024- March 2024

- Provide administrative support to the executive director and team members, including scheduling appointments, managing calendars, and making travel arrangements.
- Prepare and distribute correspondence, reports, and other documents as needed.
- Maintain and organize files, records, and databases, both electronically and physically.
- Coordinate meetings and events, including booking venues, arranging catering, and preparing meeting materials.
- Assist with fundraising and grant management activities, including donor correspondence and reporting.
- Handle inquiries and correspondence from donors, partners, and stakeholders in a professional and timely manner.
- Assist with event planning and execution, including logistics coordination and volunteer management.
- Perform general office duties, such as answering phones, greeting visitors, and ordering office supplies.

Technical Support Engineer {Azure App Services}

Oct 2023 till Jan 2024

- Responding promptly to customer inquiries and technical issues related to Azure App Services through various communication channels.
- Collaborating with customers to understand their requirements, provide guidance, and ensure a positive support experience.
- Utilizing expertise to diagnose and troubleshoot complex issues affecting Azure App Services deployments.

- Provide recommendations for optimizing Azure App Services for enhanced application performance.

Cyber security Technical Trainer at Tech Starters Africa

Oct 2023 – Dec 2023

- Created and updated training materials, courses, and curriculum to align with industry standards, best practices, and emerging cyber security trends.
- Conducted engaging training sessions, workshops, and classes on various cyber security topics, ensuring participants' understanding through hands-on exercises and practical scenarios.
- Prepared participants for industry-recognized certifications, including but not limited to CISSP, CEH, and other relevant certifications

Technical Product Manager at Aquila Cybercommunity

July 2023 – Sept 2023

- Managed the development of a new cybersecurity product from ideation to launch, resulting in a 25% increase in revenue.
- Collaborated with cross-functional teams to ensure product features aligned with overall

business goals.

- Used data-driven decision-making to inform product decisions and improve user engagement.

Security Architect Uber, Australia[CONTRACT]

Mar 2023 – May 2023

- Conducted thorough risk assessments, identifying potential vulnerabilities in Uber's infrastructure. Proposed and implemented mitigation strategies to ensure the highest standards of security.
- Worked closely with cross-functional teams, including engineers, developers, and IT professionals, fostering a culture of security awareness and collaboration.
- Guided the security team through security incidents, ensuring swift resolution and

minimal impact.

- Kept Uber abreast of the latest security standards and compliance requirements ensuring that security measures aligned with industry best practices and legal standards.

Security Analyst Intern at Clifford Chance**Dec 2023 – Feb 2023**

- Assisting in analyzing security logs and alerts to identify potential threats and vulnerabilities.
- Conducting vulnerability assessments and recommended mitigation strategies.
- Contributing to the development of incident response procedures and participating in incident investigations.
- Collaborating with the security team to enhance network security configurations.

System Administrator at System Byte Ventures**June 2022 – Nov 2023**

- Administered, configured, and maintained Windows and Linux servers, ensuring optimal performance and reliability.
- Administered virtualization platforms (e.g., VMware, Hyper-V) to optimize resource utilization and support scalable infrastructure.
- Provided technical support to end-users, addressing hardware and software issues promptly. Conducted troubleshooting to resolve technical problems.
- Managed and configured routers, switches, firewalls, and other networking devices. Implemented and maintained network security measures.

Administrative Assistant – CPHILD NGO**Jan 2022 – May 2023**

- Provide administrative support to team members, including executives, managers, and other staff.
- Manage and maintain calendars, schedule appointments, and coordinate meetings and conferences, utilizing Microsoft Office Suite (Word, Excel, PowerPoint, Outlook).
- Prepare and edit documents, reports, presentations, and correspondence with excellent written and verbal communication skills.

- Answer and direct phone calls, take messages, and respond to inquiries in a professional and courteous manner.
- Greet visitors and assisted with their inquiries, directing them to the appropriate staff members or departments.
- Handled incoming and outgoing mail, including sorting, distributing, and processing correspondence.

CERTIFICATIONS

- Certified In Cybersecurity (ISC2) - In Progress
- Network Security Associate
- Fortigate Operator - Fortinet
- Google Cybersecurity – Coursera
- High Stakes Leadership – Coursera
- Cybersecurity Job Simulation – Mastercard(FORAGE)
- Microsoft 365 Fundamentals

PROJECT

Security Awareness Campaign

- Led a campus-wide security awareness campaign to educate students and faculty about cyber security best practices.
- Designed and delivered workshops on password security, phishing awareness, and safe online behavior.
- Increased overall cyber security awareness and reduced security incidents on campus.

Simplifying Android App Analysis

- Made reverse engineering Android apps a breeze by automating those repetitive tasks—pulling, decoding, rebuilding, and patching
- Allowed users to modify and enhance apps with ease, fostering a culture of experimentation and innovation.

PROFESSIONAL MEMBERSHIPS

- Cyber security Team lead, Inventors Community, Cyber security Department
- Member, [National Association of Computing Students]
- Cyber security Team Lead, Google Developer Student Club
- Technical Trainer/ Cyber security Educator Edustipend
- Microsoft Learn Student Ambassador { ALPHA AMBASSADOR }
- Cowry wise Ambassador
- Director Hardware and Software Ondo State University of Science and Technology Okitipupa.
- Member Open Source Community Africa {OSCA}

PROFESSIONAL DEVELOPMENT

- Advanced Penetration Testing:

Enrolled in an advanced penetration testing course to deepen my understanding of offensive security techniques and enhance my skills in identifying and exploiting vulnerabilities.

- Certification in Certified Information Systems Security Professional (CISSP):

Pursuing the CISSP certification to deepen my knowledge in security architecture, including areas such as access control, cryptography, and software development security.

- Microsoft Learn Student Ambassador

Serving as a Microsoft Learn Student Ambassador from January 2022 to December 2022.

Developed technical skills in cloud computing, cybersecurity and Microsoft technologies

Organizing and hosting several technical workshops and events for students and professionals.

Contributing to the Microsoft community by sharing knowledge and resources with peers.
