EDUCATION

Bachelor of Science – Computer Science

Awarded November 2018

Ambrose Alli University, Ekpoma, Nigeria

PROFESSIONAL EXPERIENCE

November 2023 – Present || Software Engineer || Esusu Africa Yaba, Lagos

- *Revitalized an outdated application written in legacy code by migrating it to a modern architecture using the Laravel framework which significantly improved system performance, scalability, and maintainability, while also enhancing user experience and functionality.*
- *Managed customer relationships effectively, proactively addressing concerns, resolving issues, and maintaining high levels of customer satisfaction.*
- *Gathered and analyzed customer feedback and feature requests, communicating insights to internal development teams to drive product improvements and enhancement.*
- *Conducted product demonstrations, training sessions, and workshops to onboard new clients and ensure successful adoption of software products and services.*

August 2022– present || Software Engineer/Instructor || College of Vocational Science and Technology

- *Designed, developed, and maintained full-stack web applications from concept to deployment, leveraging a combination of frontend and backend technologies.*
- *Integrated third-party APIs and services to extend application functionality and enhance student experience.*
- *Managed relational and non-relational databases (e.g., MySQL, MSSQL, MongoDB) to store and retrieve application data efficiently.*
- *Implemented authentication and authorization mechanisms such as OAuth, JWT, and session-based authentication to secure web applications.*
- *Create a school portal system and additionally integrate registration functionality using a scratch card system.*
- *Deploy a system for generating scratch cards aimed at boosting revenue for the college.*
- *Assist college through tutoring sessions.*

March. 2010 – October 2022 || FrontEnd Developer || i.Sec Limited, Mainland , Lagos

- *Implemented a modular UI architecture using React.js components, leading to improved code maintainability and development efficiency.*
- *Utilized version control systems such as Git for code management and collaborated effectively with team members through platforms like GitHub or Bitbucket.*
- *Designed and developed responsive and user-friendly web applications using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and optimal performance.*
- *Translated UI/UX design wireframes into functional web interfaces, collaborating closely with designers and backend developers to integrate frontend components seamlessly..*

Nov. 2008 – August 2009 || Software Tester|| Earnwise Limited, Mainland , Lagos

- *Conducted comprehensive testing on various software applications and systems to ensure functionality, usability, and reliability*
- *Developed and executed test plans, test cases, and test scripts based on project requirements and specifications..*
- *Identified and documented software defects, tracked their resolution progress, and verified fixes through systematic testing methodologies.*
- *Participated in regular team meetings and discussions to review project progress, identify potential risks, and propose solutions.*
- *Contributed to the continuous improvement of testing strategies, methodologies, and best practices within the organization.*
- *Received recognition for uncovering critical defects during the testing phase, preventing potential issues from reaching production and saving the company time and resources.*

APPLICABLE SKILLS

Programming Language skills

- *Java*
- *Javascript*
- *Php*
- *Html, CSS, SASS*

Frameworks, Libraries and Open-Source Technology

- *Spring*
- *Laravel*
- *React*
- *Bootstrap*
- *Tailwind*
- *Javafx*
- *Nodejs*

Database skills

- *Mysql*
- *Mssql*
- *MongoDb*

VOLUNTEERING/COMMUNITY SERVICE

Vision Programming Tech

Amidst the chaos of COVID-19, Vision Programming Tech emerged as a lifeline for young minds. Through free online classes and interactive workshops, this volunteer-driven organization empowered children with coding skills, fostering creativity and resilience in the face of adversity.

Responsibilities:

- *Taught basic programming skills (HTML, CSS, SASS)*
- *Taught Database Technologies (MySQL)*
- *Taught spreadsheet software program (Excel)*
- *Taught basic prototype-based object-oriented language (JavaScript)*
