

# F A V O U R E K E C H K W U

## SUMMARY

As a passionate and dedicated programmer from Nigeria, my fascination with coding was sparked when I first previewed an HTML code in a browser—a moment I still cherish. This pivotal experience shaped my academic path, leading me to pursue and proudly graduate with a degree in Software Engineering. Since then, I have embarked on a rewarding journey in the tech industry, driven by a commitment to solving complex problems through programming.

My dedication to lifelong learning and development in the tech field motivates me to continuously seek opportunities to enhance my skills and leverage technology for positive societal impact. Each day presents a new opportunity to expand my expertise and contribute meaningfully to technological advancement and societal progress.

Driven and determined software engineer, promoting 2 years of experience in building client applications. Offers strong interpersonal and communication skills. Seeking engineering role at leading defence and security company that delivers full range of products and services.
