Software Engineer
+2347082544215
- ❖ Engr Adu Sunkanmi
Senior Software dev
+234703 734 7461

- Implemented unit testing and integration testing methodologies, resulting in a significant reduction in bugs and production issues.

Intern Front end Developer

Telnet Nigeria Limited, [VI, Lagos State

[2019] - [2020]

- Assisting senior developers in the design and development of web applications, gaining hands-on experience in front-end and back-end technologies.
- Participated in code reviews and debugging sessions, contributing to the improvement of application performance and code quality.
- Developed and maintained documentation for various projects, ensuring smooth knowledge transfer within the development team.
- Collaborated with cross-functional teams on project tasks, enhancing communication and teamwork skills.

EDUCATION

HIGHER NATIONAL DIPLOMA (MARINE ENGINEERING TECHNOLOGY)

Federal College of Fisheries and Marine Technology VI, Lagos State.

[2023]

NATIONAL DIPLOMA IN MARINE ENGINEERING

Federal College of Fisheries and Marine Technology VI, Lagos State.

[2017]

SECONDARY SCHOOL LEAVING CERTIFICATE

Ajogbo Grammer School, Ijako, Ogun State.

[2013]

PROJECTS

Project: Payment Automation System (Laravel)

- Currently and actively contributing to a startup project – the Payment Automation System.
- Developing robust RESTful APIs using Laravel sanctum. The journey involves close collaboration with a talented agile team, where we seamlessly integrate Continuous Integration and Continuous Deployment (CI/CD) practices.

Project: Job posting Website (Laravel)

- Developed a responsive get gig web application for user to post a job using Laravel breeze.

Project: E-Commerce Website (Django full stack)

- Developed a responsive e-commerce website using HTML, CSS, BOOTSTRAP JavaScript and Django incorporating product filtering and dynamic cart functionality.
- Designed and implemented the user interface with a focus on intuitive navigation and visually appealing aesthetics.

Project: E-Commerce Website (MERN stack)

- Developed a MERN BACKEND for an e-shop website, tested with postman.

Project: Portfolio Website (Personal)

- Created a personal portfolio website using React, showcasing various projects and skills.
- Utilized React Router to implement smooth navigation between different sections of the website.

Project: Movie-Recommendation app

- Implementing react-redux for state management and designing user friendly web app.
