

Olalekan Micheal Leke

Full-stack developer

PROFILE

I am a full-stack developer, with 1 year experience. I have worked extensively with HTML, CSS, Javascript, PHP, Tailwindcss, MySQL and Laravel. My drive for working as always been fueled by the passion I have for building web apps. Making sure the web apps I build, are secured, maintainable, readable and scalable is always my priority. I am dedicated to learning new skills that would further improve my skills and let me develop web apps according to the client's needs.
