

# ADEWOLE NOAH ADETOLA

## BACKEND DEVELOPER

Lagos State, Nigeria | +2347012031340 | [adewolenoah3@gmail.com](mailto:adewolenoah3@gmail.com) | [Github](#) | [LinkedIn](#)

### PROFESSIONAL SUMMARY

I am an experienced Back end developer with a track record of successfully creating web solutions for retail clients. I excel at designing APIs, databases, and user-centered experiences, and have received extensive training in systems architecture, software development, and application optimization. My resourcefulness, innovative approach, and agility make me an asset to any team.

### TECHNICAL SKILLS

HTML, CSS, JavaScript, jQuery, Vue.js PHP, Laravel, Bootstrap, Tailwind CSS, Livewire, Relational Databases, TDD, Unit Testing, Trello, Jira, Linus, Slack, Git, Notion and Figma

### PROFESSIONAL EXPERIENCE

#### Backend Developer | Arike Alaso

*June 2024 – September 2024*

- Collaborated with a senior developer to design the database schema and website flow for an eCommerce platform, improving development efficiency by 15%.
- Developed key API endpoints for orders, carts, products, product categories, sliders, collections, and checkout, achieving a 20% reduction in API response time and enhancing platform performance.
- Contributed to the design and integration of dynamic sliders and collections, boosting user engagement by 25% through an improved visual and interactive experience.

#### Full-Stack Developer | SmartRob Technology

*April 2024 – May 2024*

- Developed a full-stack real estate platform, handling both backend and frontend development for property listings, user authentication, and transaction processing, achieving a 25% reduction in development time through optimized workflows.
- Optimized database queries and search functionality, resulting in a 40% improvement in load times and overall platform performance.
- Integrated third-party services, including payment gateways and geolocation APIs, enhancing platform capabilities and contributing to a 20% increase in user engagement.
- Worked on the Social Climb Application, enabling users to earn rewards by completing social media tasks, contributing to a 30% increase in user retention.
- Implemented robust APIs and task validation processes, leading to a 25% improvement in platform reliability and user satisfaction.

#### Backend Developer | Zealarax Technologies

*March 2018 - December 2019*

- Contributed to the development of the School Management System, ensuring robust functionality and scalability for educational institutions.
- Played a key role in creating the Monitoring Information System (Zamrafa), optimizing data tracking and reporting processes.
- Built and maintained the Rtech Exchange, ensuring secure and efficient transactions.
- Collaborated with front-end teams to integrate APIs and streamline workflows.
- Utilized tools like Jira and ER diagrams for effective planning, communication, and project execution.

### EDUCATION

#### The Federal Polytechnic, Ilaro

Higher National Diploma (HND) in Computer Science

**2019 – 2021**
