 Lagos, Nigeria

## PROFILE

I am Godwin, a **Solutions Architect** and Software Engineer with over **8 years** of hands-on experience in development and more than **5 years in Tech Managerial/Supervisory** roles. I develop for both the web and mobile platforms using various stacks including **PHP, NodeJS** and **Java** for the web, **Tailwind CSS, VueJS, AngularJS** and **ReactJS** for frontend, Strong **GIT** skills, Good experience with **Redis, Docker** and **Kanban** and **Kotlin Java** for native android. I have rich experience in the FinTech space, EdTech and other commercial space. My strength is **analytical thinking**.

## EXPERIENCE

### Senior PHP Developer

 Mar 2023 - Feb 2024

Proweb e-Solutions | Sokoto, Nigeria

- Develop and nurture a team of engineers/Developers by leading, mentoring, and assisting in hiring critical talent
- Provide technical leadership to the development teams by performing design and code reviews.
- Build a culture of engineering excellence (quality, security, performance, scalability, availability, documentation, etc.)
- Hire, retain and grow a high-performing team of software engineers.
- Collaborate with other product team members (Product Managers, Administrators, Designers, etc.)
- Manage the prioritization and delivery of new products and the maintenance of existing products.
- Ensuring compliance with regulatory requirements
- Propose and implement tools, policies, and processes that ensure software engineering best practices.
- Collaborate with senior technical staff and PM to identify, document, plan contingency, track and manage risks and issues until all are resolved
- Present technical solutions, capabilities, considerations, and features in business terms. Effectively communicate status, issues, and risks in a precise and timely manner
- Test and continuously integrate newly developed codes with the existing codebase.
