CAREER OBJECTIVES

I am a software developer and problem solver dedicated to delivering innovative, cost-effective, and user-centered solutions. With expertise in PHP, JavaScript, Python, and frameworks such as Laravel, React.js, Vue.js and React Native, I have created scalable applications that achieve measurable results, such as a 20% increase in user engagement and a 35% reduction in load times.

While I primarily excel in backend development, I am proactive in improving my skills across the full development lifecycle to ensure I deliver comprehensive, high-quality solutions. My approach is rooted in adaptability, focusing on project requirements rather than relying solely on familiar tools. This flexibility allows me to learn and adopt new technologies efficiently, ensuring my work aligns with evolving business needs.

I acknowledge that no project is without challenges, whether it's navigating tight deadlines, managing diverse teams, or handling complex requirements. However, I see these as opportunities for growth and problem-solving. I pair my technical expertise with strong communication skills, enabling seamless collaboration with stakeholders and team members alike.

My ultimate goal is to join a forward-thinking, mission-driven team where I can continue to refine my skills while contributing to the creation of impactful, purpose-driven tools that make a difference.

CORE COMPETENCE

1. FRONTEND DEVELOPMENT:

- Languages: HTML, CSS, JavaScript
- Styling: Tailwind CSS, Bootstrap,
- Frameworks: React/Redux,(Web); React Native + Expo (Mobile); Electron (Desktop);
- Others: Wordpress, Blade + Alpine, Axios, Inertia, Figma, Scratch (For teaching children to code), Angular.js, , CodeIgniter. etc.

2. BACKEND DEVELOPMENT:

- Languages: PHP, Node.js, Python

- Frameworks: Laravel, Express.js,
- APIs: RESTful, GraphQL,
- Others: Postman, Zod, Jest, SSH, Putty, Powershell. Xampp, etc.

3. DATABASE DEVELOPMENT

- SQL: MySQL, PostgreSQL, SQLite
- NoSQL: MongoDB
- Others: Phpmyadmin,

4. DEVOPS

- Languages: Linux CLI, shell, Git
- Containerization: : Docker
- CI/CD pipelines: Jenkins, GitHub Actions (still exploring)

Education

B.E.d. Counsellor Education, University Of Ilorin	2017 – 2022
TEFL, Professional Institute of Teacher Record	2021 – 2022
