### PROFESSIONAL EXPERIENCE

---

#### FREELANCE

##### Junior Software Developer

Remote  
2024-Present

Collaborated with multiple startups and small businesses to deliver optimized web applications and user interfaces. Specialized in implementing scalable web solutions using modern JavaScript frameworks while ensuring cross-browser compatibility and mobile responsiveness. Contributed to product development strategies and UI/UX improvements across diverse client projects.

- Built mobile-friendly web platforms and e-commerce solutions for multiple clients, delivering projects with 100% feature implementation and an average of 7 days ahead of schedule.
- Integrated modern JavaScript frameworks (React) to create interactive user interfaces that increased client conversion rates by 35% and decreased bounce rates by 28%.
- Created custom component systems that optimized workflow efficiency time by 30% and maintained consistent design systems across multiple client projects.

#### ENOVERLABS

##### Frontend Intern

Remote, NG  
2024

Liaised with a team of frontend developers to develop an MVP for an online store which enables local herbal sellers to market their herbal remedies to consumers.

- Implemented responsive UI components and user flow optimizations that increased average app engagement time by 2x and reduced drop-off rates by 30%, directly contributing to higher conversion rates.
- Designed a streamlined checkout process and improved product information displays that minimized return rates by 10%.
- Built reusable component libraries that reduced development time for new features by 35% and ensured consistent design implementation across the platform.
- Delivered the project two weeks ahead of schedule with 100% of required features successfully incorporated, exceeding client expectations and allowing for additional time to optimize performance and integrate user feedback.

### NOTABLE PROJECT

---

#### [ECOBAZAR](#)

2024 - 2025

**Overview:** This is a MERN stack e-commerce application that allows users to browse products, add them to a cart, and make purchases. The application includes Google signup authentication, providing a seamless experience for users to sign up and log in using their Google accounts.

**Features:** Product browsing and searching, shopping cart functionality, user account management, order history, responsive design for mobile and desktop devices.

Frontend: React, Zustand, Tailwind CSS, Axios

Backend: Node.js, Express.js, MongoDB

Authentication: Google OAuth, JWT

### ADDITIONAL INFORMATION

---

- **Technical Skills:** React, Javascript, HTML/CSS, TailwindCSS, Git, MongoDB, NodeJs, Express
- **Languages:** English; Conversational Proficiency in English
- **Certifications:** Programming with JavaScript (Coursera), Introduction to Frontend Development (Coursera), Version Control (Coursera), JavaScript Essentials 1 (Cisco Networking Academy)
