

IBITOYE BOLUWATIFE PAUL

Lagos, Nigeria | +234 8152506381 | ibitoyeboluwatife8@gmail.com

Skills

- Frontend: HTML, CSS, JavaScript
- Backend: PHP, Laravel,
- Tools: Git, Composer, npm, MySQL

Experience

Junior Software Developer

I-Manager Solutions, Surulere Lagos | December 2021 - Present

- Collaborated with a team of 5 developers to design and implement web applications using PHP and Laravel, ensuring scalability and maintainability.
- Developed and maintained RESTful APIs for seamless integration between frontend and backend systems.
- Wrote clean, efficient, and well-documented code, reducing system bugs by 20% and improving overall performance.
- Assisted in troubleshooting and resolving software issues, enhancing system reliability and user satisfaction.
- Participated in Agile workflows, including daily stand-ups, sprint planning, and retrospectives, contributing to the timely delivery of 3 major projects.
- Worked on frontend development using HTML, CSS, and JavaScript to create responsive and user-friendly interfaces.
- Conducted code reviews and collaborated with senior developers to ensure adherence to best practices.
- Improved personal coding skills through continuous learning, mentorship, and hands-on experience.
- Monitored the technical performance of internal systems and implemented optimizations to reduce load times
- Gathered user feedback to improve program functionality and address pain points.

PROJECTS :

1. Academy.TercesJobs.com (PHP, Laravel, JavaScript)

- Developed a learning management system with user authentication, course enrollment, and progress tracking features.

- Enhanced user engagement by 30% through responsive design and intuitive UI.

2. DivanCrest.com (HTML, CSS, JavaScript, PHP)

- Built a real estate website enabling property listings and inquiries.

- Integrated a backend dashboard for admin management using Laravel.

3. E-Commerce Platform (PHP, Laravel, MySQL, JavaScript)

- Developed a fully functional e-commerce platform with features like product listings, shopping cart, and payment integration.

- Implemented user authentication and admin panel for product management.

- Optimized database queries to improve page load speed by 25%.

4. Task Management App (React Native, PHP, Laravel)

- Built a cross-platform mobile app for task management using React Native and integrated it with a Laravel backend.

- Features included task creation, reminders, and progress tracking.

- Improved user productivity by providing a simple and intuitive interface.

5. Blog Platform (PHP, Laravel, JavaScript)

- Created a blog platform with user registration, post creation, and commenting functionality.

- Implemented a rich text editor for blog posts and optimized SEO for better search engine visibility.

- Reduced server response time by 20% through caching and database optimization.

Education

Gateway Polytechnic, Saapade Ogun State Undergraduate in Computer Science

Key Achievements
