WORK EXPERIENCE

BLUECHIP TECHNOLOGIES | SENIOR FRONTEND DEVELOPER (WEB & MOBILE) Victoria Island, Lagos | April 2023 – Present

- Engineered scalable, data-driven applications supporting 10,000+ concurrent users with 99.9% up-time across enterprise domains.
- Boosted SEO and search visibility by 40% through performance tuning, metadata improvements, and SSR implementation.
- Tracked and resolved 150+ issues, documenting feature changes and maintaining comprehensive release notes.
- Collaborated with UX, backend, and product teams to translate business goals into intuitive UI components aligned with project specs and delivery timelines.
- Led UI/UX initiatives that increased user satisfaction by 25%, including redesigns and accessibility enhancements.
- Spearheaded PWA integration, reducing bounce rate by 18% and improving offline functionality across mobile platforms. Implemented CI/CD pipelines (GitHub Actions, Azure DevOps) to streamline builds and deployments, reducing manual errors by 60%.
- Facilitated code reviews, unit tests, and end-to-end validations using Jest and Cypress, improving reliability and reducing regressions by 30%. Integrated with custom APIs and internal services (e.g., WSO2 connectors), ensuring seamless enterprise service orchestration and scalability.
- Developed and maintained cross-platform mobile applications using React Native, achieving 20% faster time-to-market for mobile releases while ensuring consistent UI/UX across iOS and Android.
- Authored technical documentation and UAT support, enabling knowledge sharing and faster on-boarding for new developers.

PRIMO TECH ACADEMY (A DIVISION OF BLUECHIP TECHNOLOGIES) | HTML/CSS/JAVASCRIPT FACILITATOR Lagos | April 2023 – Present

- Trained 200+ students, including professionals from GTBank and Polaris Bank.
- Presented and delivered 30+ tailored lessons on HTML, CSS, and JavaScript, improving student performance metrics by 45% on average.

LAWPAVILION BUSINESS SOLUTIONS | FRONTEND DEVELOPER Lagos (Remote) | November 2022 – March 2023

- Built and maintained performant web apps using Next.js and TypeScript, resulting in a 25% improvement in load speed.
- Applied Redux and Context API for efficient state handling across 10+ modules.
- Improved codebase reliability by 30% through comprehensive unit testing with Jest and Cypress.
- Boosted frontend speed by 40% using lazy loading and code splitting techniques.
- Collaborated with UI/UX and backend teams to integrate RESTful APIs, accelerating feature delivery by 20%.

PROVEHUB LIMITED | FRONTEND DEVELOPER (WEB & MOBILE) Lagos Island, Lagos | January 2020 – October 2021

- Transformed business needs into web and mobile solutions with a 95%+ client satisfaction rate (measured via feedback forms).
- Redesigned provehub.com, leading to a 50% traffic increase in 3 months.
- Enhanced UX across devices, reducing support tickets by 35% post-launch.

PROGRAMMING SKILLS	Javascript, ReactJS, NextJS, React Native, Zustand, Typescript, Git, Jest, Docker, Sass, Tailwind
OTHERS	Agile Methodologies, PostMan, Jira, Git
TOOLS	Webpack, Babel, npm/Yarn
TESTING	Jest, Cypress

PROJECTS

FACILITYOPTIMIZATION - OFFSITEHIRING.CO.UK | NEXTJS, JEST, TAILWIND CSS, ZUSTAND

<https://staging.offsitehiring.co.uk/>

Led a cross-functional team of six developers and designers to deliver a high-performance B2B marketplace built with Next.js (App Router, TypeScript, Material UI). Oversaw project planning, sprint management, and code reviews, ensuring timely delivery and technical excellence across backend, frontend, and product teams. Developed features including Google Maps API integration for real-time geospatial facility search within a 5km radius, and implemented SSR/SSG to optimize over 5,000 listings—boosting load speed, SEO, and user engagement.

FORVRMURR | NEXTJS, TAILWIND

<https://forvmurr.com/>

An Online fragrance store

EDUCATION

UNIVERSITY OF ILORIN | BSC QUANTITY SURVEYING

Ilorin | Sep 2014 - Sep 2019
