PROFILE

Results-driven IT & Telecommunications Professional with 8+ years of experience in software development, systems integration, and technical team leadership. Adept at managing technical system support teams, developing innovative software applications, and GIS databases to optimize network rollout and coverage. Proven ability to lead cross-functional teams, implement scalable IT solutions, and ensure high system availability (24/7). Passionate about coaching teams, driving innovation, and aligning technology with business objectives

CORE COMPETENCIES

- Software Development Lifecycle Management & Systems Integration
- Database Design & Secured Data Backup
- GIS Data Management & Reporting
- Team Leadership & Performance Management
- Technical Training & Capacity Building
- Tools & Systems Procurement & Evaluation
- High Availability Systems (24/7)
- Stakeholder Collaboration & Communication
- Agile Project Management

EXPERIENCE

Digital Innovations Specialist 06/2023 Society for Family Health (Lagos, Nigeria) -

- Managed the design, development, and optimization of bespoke software solutions
- Directed implementation and maintenance of GIS and monitoring platforms with accurate and real-time data across operational regions
- Led training initiatives and performance reviews, resulting in a 30% improvement in team efficiency.
- Managed database architecture and ensured data security protocols were strictly followed.
- Evaluated and recommended state-of-the-art software applications to support core project activities, coverage, quality, and capacity.
- Achieved 99.95% system uptime across all supported tools in the last 12 months.

Tech Lead 05/2021 Cavidel Limited (Lagos, Nigeria) 05/2023

- Led full-cycle development of enterprise software solutions for financial markets information and analysis
- Acted as primary technical liaison for software vendors and internal stakeholders.
- Oversaw a team of 12 software engineers and support analysts, ensuring 24/7 availability of mission-critical systems.
- Lead and manage a technical system support team, ensuring optimal performance and meeting support expectations across multiple regions.
- Developed and deployed a custom monitoring dashboard adopted company-wide for real-time KPI tracking.
- Developed and implemented training programs to close knowledge gaps and enhance team capabilities.
- Played a key role in transforming legacy systems, achieving a 60% improvement in reporting speed.
