WORK EXPERIENCE

 **BEEYARN** – LAGOS, NIGERIA

LARAVEL DEVELOPER – 03/03/2025 – 06/03/2025

- Designed and developed RESTful APIs for a social media startup app using Laravel, following the MVC architectural pattern to ensure clean code organization and scalability.
- Implemented JWT authentication for secure user login, token generation, and session management.
- Integrated Firebase services for real-time data features and push notifications.
- Integrated and tested Paystack for secure payment processing, including transactions and verification flows.
- Ensured high code quality through unit testing and clear documentation.
- Participated in weekly sprint meetings, providing updates and resolving blockers.
- Architected event-driven notification system using Laravel events, listeners, and queues to handle user interactions, email notifications, and background processing asynchronously.
- Led backend API development, contributing ~90% of the production-ready codebase used during the platform's initial launch.

 **MACTAVIS DIGITAL** – LAGOS, NIGERIA

BACKEND DEVELOPER INTERN – 02/15/2024 – 12/25/2024

- Followed a structured learning plan to develop backend skills using PHP and Laravel.
- Participated in weekly progress meetings to present updates and discuss technical challenges.
- Built mini backend projects while collaborating with frontend developers to integrate APIs.
- Completed online training courses in PHP, Laravel, and RESTful API development.
- Developed understanding of MVC architecture, Service Repository Pattern, routing, controllers, and database management using MySQL.
