## PROFILE

Laravel Developer with over 7 years of experience building scalable web and SaaS applications. Skilled in Laravel, PHP, Vue.js, and MySQL with deep understanding of backend architecture, REST APIs, authentication, and multi-tenant systems. Experienced in developing EdTech platforms such as Testoria.ng and ExamPortal.online, and affiliate SaaS systems like Tracklia. Combines strong coding ability with a user-centered approach to building reliable, secure, and maintainable web applications.

## CORE SKILLS

Languages & Frameworks:	Laravel, PHP, JavaScript, Vue.js, HTML/CSS, Python
Databases & Tools:	MySQL, Redis, Git, Composer, REST APIs, GraphQL
Architecture & Systems:	Multi-Tenant SaaS, MVC, Queues, Authentication, Webhooks
Cloud & Deployment:	Microsoft Azure, Linux, Nginx, Redis, CI/CD, Supervisor
Other Skills:	Agile, Project Management, Technical Documentation, Customer Experience

## PROFESSIONAL EXPERIENCE

### Lead Laravel Developer & SaaS Architect | Tracklia – Lagos | Dec 2024 – Present

Built and scaled a multi-tenant affiliate management SaaS using Laravel and Stancl. Implemented subscription logic, merchant onboarding, and automated payout features. Integrated APIs, optimized queries, and improved code reusability for large tenant data volumes. Worked closely with users to debug, document, and refine system workflows.

### Founder & Developer | Testoria.ng & ExamPortal.online | 2023 – Present

Developed and deployed EdTech platforms enabling schools, HR teams, and learners to create and manage online exams and assessments. Designed secure exam environments with proctoring support, question randomization, and performance analytics. Focused on accessibility and smooth user experience for Nigerian schools and organizations.

### Azure Technical Support Engineer | Tek Experts – Lagos | Mar 2024 – Nov 2024

Resolved API, deployment, and integration issues for Microsoft Azure customers. Troubleshoot complex backend problems and guided developers through solutions. Maintained 95%+ SLA compliance while documenting key insights for faster future resolutions.

### Web Developer | CodeGummy – Lagos | Jan 2023 – Mar 2024

Built and maintained e-learning platform features using Laravel and Vue.js, improving performance and student engagement. Refactored backend logic, improved API documentation, and implemented caching for better response times.

## EDUCATION & CERTIFICATIONS

B.Sc. Chemistry – Ahmadu Bello University, Zaria (2014)  
Financial Modeling & Valuation Analyst (FMVA)® – Corporate Finance Institute – Ongoing  
IBM Data Science Professional Certificate – IBM (2019)  
Databases and SQL for Data Science – (2019)  
Six Sigma White Belt Certification – (2019)

## PROJECTS & ACHIEVEMENTS

- Built and launched Tracklia.com, a SaaS affiliate management system handling multiple tenants securely.
- Developed Testoria.ng and ExamPortal.online – EdTech platforms for creating and proctoring online tests.
- Created DealsIntel.com – a SaaS-based affiliate deal aggregation platform.
- Improved system reliability and reduced onboarding issues through better documentation and automated testing pipelines.
